This is my first LaTeX document.

1. First item

2 Science!

Einstein's famous mass-energy equivalence equation is $E = mc^2$ [*Einstein*, 1905].

3 Equations and Citations

The Schrödinger equation is given by

$$i\hbar\frac{\partial\Psi(r,t)}{\partial t} = \left[-\frac{\hbar^2}{2\mu}\nabla^2 + V(r,t)\right]\Psi(r,t). \tag{1}$$

Equation 1 describes the time-dependent Schrödinger equation [*Schrodinger*, 1926].
